DTI 4-A's SSF-assisted coop runs 1st eco-friendly PUVs in Cavite

In line with the Public Utility Vehicle Modernization Program (PUVMP) of the Department of Transportation to make the country's public transportation system efficient and environment-friendly by 2020, a beneficiary of the Department of Trade and Industry Region 4-A's Shared Service Facilities Program—the Silang Transport Service and Development Cooperative (STSDC)—introduced their 23 new and modernized units of PUV to provide service in Imus City and Silang, Cavite last May 21, 2020.

Through the financial assistance of the Department of Budget and Management and the effort of STSDC's Manager, Mr. Sulpicio Arellano, the Cooperative has successfully paved the way to offer and run the first eco-friendly and conducive PUV in the province. They demonstrated their readiness to serve the public by observing social distancing and other health protocols with their passengers.

According to STSDC, this is their answer to the government's call for an eco-friendly transportation system and the LGUs' call to service commuters plying from Silang to Imus and Silang to Tagaytay and vice-versa. Routes will be stretched once the new normal is in place in the province.

23M NA BENEPISARYO NG SAP MABIBIGYAN PA KAYA?

Wala ng katigil - tigil ang reklamo at apila ng mga hindi nakatanggap ng cash assistance mula sa Social Amelioration Program ng DSWD, paano nga naman ang ilan pa sa mga nabigyan ay halos kamag - anak pa ng mga Barangay Officials at ang iba naman ay nakakaangat pa sa buhay.

Simula ng mangyari ang usapin maraming nasangkot at marami ding nasisi. Ang malaking katanungan mabibigyan pa nga ba talaga ang mga hindi nakatanggap? Na kamakailan lamang sa isang pahayag ni Pangulong Duterte, sinabi ng pangulo na magbibenta siya ng kanyang ari - arian mabigyan lamang ang mga hindi nakatanggap.

Pero marami pa ring nalilito at naguguluhan dahil ang laki ng pondo na binigay sa bawat bayan at lungsod pero bakit hindi nabigyan lahat? Dahil sa nangyari halos milyong kababayan natin ang nadihado at naapi, nakapagtataka lang kasi na bago pa ang distribusyon ng SAP cash assistance sinabing sapat na ang pondo.

Pero bakit maraming hindi nabigyan? Sana magkatotoo ang mga pahayag na mabibigyan sa 2nd tranche ang mga benepisaryo na hindi nabigyan.

a po ang pamimigay ng ayudang relief goods ng ating Imus City , pero ang ating makisig, laging nakangiting Congressman Alex "AA" sama ang anak niya, No. 1 Councilor AJ Advincula ay patuloy sa g tulong na bigas, isang buong manok at iba pang ayuda sa mga ating kababayang Imuseño.

-maraming salamat mo, Cong. AA at Konsi AJ Advincula!

bis naming kinalulungkot dahil sa reklamong natanggap namin mula teer sa pagre-repack ng mga relief goods sa isang siyudad sa Cavite. kumuha sa kanila para mag-volunteer ay pinangakuan sila na kahit y pera at pagkaing maiuuwi sa kanilang mga pamilya.

nawalan sila ng trabaho dahil sa lockdown at wala rin ngang anan ng magagastos ay pumayag sila na tumulong sa repacking ng migay na ayuda.

na may pipirmahan sila na listahan ng mga nagtrabaho bilang skeletal cityhall sa panahon ng halos dalawang buwan na trabaho at inaasahan y nasa payroll dahil ang pangako sa kanila, sila ay tatanggap ng

la, honest at mapagkakatiwalaan ang taong iyon,.

nyo kung ilang trak na may mga sako ng bigas ang matiyaga at naming takalin, ilagay sa supot at at ilagay sa plastic bag," sabi ng lamo sa amin.

n pa sila ng quota sa dami ng maisusupot na relief packs at ang i ng isa pang volunteer, ang mga bantay sa kanilang ginagawa ay sila ay parang pinasasahod sila.

Hindi na rin daw nila pinapansin ang maraming relief packs na inilalalagay sa mga bayong ng mga alipores ni "Ma'm" kasi baka sila pa ay mapagbintangang nag-uuwi ng mga ni-repack na bigas at pagkain.

"Kahit nagugutom kami sa pagtatrabaho, binabawalan kami na kumain ng noodles na nire-repack namin, pero ang mga alipores ng babaeng iyon, kung maglabas at kumain ng noodles, ay okay lang, e hindi naman sila tumutulong sa repacking at nakabantay lamang," reklamo sa amin.

Nang matapos ang mahigit sa dalawang buwan na pagtatrabaho sa sports complex, umasa sila at naghintay na matatanggap nila ang ipinangakong "sahod" sa kanilang pagpapagod.

Alam nila na may ipinabibigay na "sobre para sa kanila ang mabait at makisig na city mayor.

"Yun ang sabi sa amin ng isang CSU. Ang bilin ni Mayor sa babaeng iyon, bigyan kami ng relief goods at 'sobre' matapos ang araw ng aming pagre-repack. Nakapag-uuwi kami ng relief packs para sa aming pamilya, pero ang sobre? Wala pong sobre na ibinigay sa amin. Wala po, wala talaga!" naiiyak na sabi ng nagreklamo sa amin.

"Ang natanggap lamang namin ay ang relief packs... pagkain, pero ang sobre na ang laman ay pamasahe namin, wala po, waley... naibulsa ni Ma'm. Waley na ibinigay sa amin," sabi pa niya.

Ramdam namin ang sama ng loob ng mga nagreklamo sa amin. Hindi namin kilala ang babaeng sinasabi nila, na sobra raw malapit sa city mayor at isa sa trusted nito sa cityhall.

Kung sino ang babaeng ito? Well, sana po hindi po ito totoo ma'am.....

DOH CALABARZON STRENGHTENS OWN HEALTH SYSTEM TO FIGHT DISEASES BEYOND COVID PANDEMIC

The Department of Health (DOH)- CALABARZON (Cavite, Laguna, Batangas, Rizal, Quezon) has been strengthening its health system by establishing more health facilities and developing and upgrading existing hospitals including competencies of health care workers in the region not only to fight the current COVID 19 virus but also to fight diseases beyond the present pandemic.

"As part of the "new normal", a health system must be ready to fight any epidemic that may occur such as the present COVID 19 pandemic or any other diseases that may endanger the health of the community," Regional Director Eduardo C. Janairo strongly stated.

"We now have two regional hospitals that can serve people from various municipalities of the region, the Batangas Medical Center in Batangas and the Southern Tagalog Regional Hospital in Cavite, two specimen testing laboratories in the region at the Lucena United Doctors General Hospital in Quezon and the De La Salle Medical Health and Sciences Institute in Cavite."

Janairo added that the regional office is in the process of utilizing other health facilities in other provinces to further improve their health services.

CALABARZON is the region has a population of about 15 million people. "We have to safeguard and protect the health and welfare of these people and at the same time, we want the region to be independent from Metro Manila in terms of medical services. This is also the best way to decongest hospitals in NCR because once we have a level 2 or 3 hospital in every province, residence need not go to Manila to get their treatment," he emphasized.

Janairo added that the regional office is in the process of procuring GeneXpert machines for covid19 virus testing to be distributed in identified health facilities in various provinces. These machines are actually initially intended to be used for testing tuberculosis. He explained that the GeneXpert analyzes TB by detecting the presence of TB bacteria, as well as testing for resistance to the drug Rifampicin.

"He also bares plan for a disease testing laboratory which is now in the process of development and will be established in one of the provinces. "Laboratory medicine is an essential part of public health and it is a must for the detection of disease in individuals and populations. We can prevent the spread of any disease, from its early detection and diagnosis, to individualized treatment plans. It is the key to improving healthcare quality and avoiding long-term health costs."

"We need to plan beyond the COVID pandemic. We have to know how to protect ourselves and our communities. We need to have a successful response capability system and a capable emergency management structures that is in place and ready to use in case of any biological and other natural health hazards that may occur," he concluded. ***(Glenn S. PhilHealth's Interim Reimbursement Mechanism (IRM)

The Interim Reimbursement Mechanism or IRM is an emergency cash advance measure applied by PhilHealth to provide hospitals with an emergency fund to respond to unanticipated events like natural disaster and calamities. When the Covid-19 global pandemic was declared in February 2020, and drawing from the modeling forecast available at the time, PhilHealth prepared an IRM response equivalent to 90 days of annual historical benefit claims to be made available to all health care institutions nationwide including dialysis centers and lying in clinics. This requirement was estimated to be P30 Billion. Since the emergence of the first locally transmitted Covid-19 cases in February, the following pattern has emerged that will require PhilHealth to recalibrate its IRM response:

• The disease is concentrated only in high population density areas like the NCR and Regions 3, 4, 7 and 11. Many areas exhibit low or Covid-19-free incidence. PhilHealth's strategy is to provide IRM to all referral hospitals and laboratories in all provinces. This has already been achieved. • Government's anti-Covid 19 strategy will entail expanded targeted testing and subsequent quarantine of confirmed individuals. This will require funding which will fall on PhilHealth.

. • Financial sustainability of the antiCovid-19 response. With still no vaccine in sight PhilHealth will take the prudent path to ensure that sufficient funds continue to be available to protect all citizens from the severe impact of the pandemic.

To date PhilHealth has released a total of P13.8 Billion to 599 health care institutions nationwide, P7.3 Billion or 53% of which was released to private institutions. Of this, almost P4 Billion or 29.7% was released to NCR, the ground zero of Covid-19.

PhilHealth will now scale down its IRM release and preserve its funds for the anticipated expanded targeted testing required by the national anti-Covid 19 strategy. Further releases will be selective and following above mentioned considerations.

Mabuhay ang PhilHealth! Mabuhay ang Pilipino.

DPWH...

(FROM PAGE 1)

This is following the released Department of Public Works and Highways (DPWH) Department Order No. 35 (and its Department Order No. 39, repealing DO No. 35), Series of 2020 or the "Construction Safety Guidelines for the Implementation of all DPWH Infrastructure Projects during the COVID-19 Public Health Crisis" as approved by the Interagency Task Force on Emerging and Infectious Diseases (IATF-EID).

"With the relaxing of the Community Quarantine, we need to get the projects back on track, most especially the BBB projects which aims to spur and sustain economic growth by constructing infrastructure projects badly needed by the country. The guidelines set is to ensure the health and safety of everyone involved in the projects. Strict compliance is expected." Said DPWH Secretary Mark Villar.

The construction of major infrastructure projects was suspended when the COVID-19 pandemic hit the country causing the adjustments for construction protocols.

"The guidelines of DPWH are specific to help stem the disease. The contractors must follow new protocols at the jobsite which changes the preparation and mobilization time of the projects, these adjustments have an effect on the timeline. We also give great consideration on the renewed focus by the government on BBB projects; we want to accelerate completion of projects – subject to DPWH and the Department of Health guidelines," said MPT South President and General Manager Roberto V. Bontia.

MPT South has resumed the road widening construction for CAVITEX R-1 second phase of bridge works in Parañaque, Las Piñas and Wawa and now at 55% completion. Construction Personnel and allied services had remobilized for the resumption of works in CALAX Subsections 4 and 5, and Cavite Segment. ROW acquisitions for Cavite Segment and Subsection 4 are still ongoing. Subsection 5, the continuation from Santa Rosa to Silang is at 96% ROW acquisition with siteworks at 57%, significantly.

Meanwhile, CAVITEX C5 Link Segment 3A2 and Segment 2 ROW acquisitions are at 81% progress. A letter of award has been issued to the qualified bidder while details of project execution are currently in the works.

Preparing for the 'new normal'

Around 1,600 employees went through the COVID-19 Rapid Anti-Body Diagnostic Testing. The large-scale testing for employees and construction personnel is part of the transition plans of the company as it prepares for the "new normal." Though not required by the government, MPTS wants to assure that the employees reporting for work will be in good health condition to make their customers, stakeholders and even their families feel safe and secure in this time of pandemic.

Bontia said that this move is a reaffirmation of the company's commitment to the employees' welfare and safety. "These actions are critical to ensure we all remain safe in our different workspaces. We will continue to monitor developments related to the crisis which could entail corresponding adjustments to our safety protocols over time," he said.

Gradual return of workforce will start upon receiving the results of the tests. Also, daily health monitoring protocols, provision of basic personal protective equipment (PPEs), sanitation and disinfection of office spaces, and health and safety guidelines will be observed as part of the preventive measures against the spread of COVID-19.

"We continue as an organization to demonstrate patience, the spirit of collaboration and malasakit – these are elements which will indeed see us through the challenges of this health emergency situation," Bontia added.

At the start of the Enhanced Community Quarantine CAVITEX, C5 Link and CALAX remained open 24/7 to facilitate the unhampered flow of goods and services. The use of RFIDs on expressways has been promoted massively to strengthen social distancing protocols to combat COVID-19.

MPT South is a unit of Metro Pacific Tollways Corporation, the toll road arm of MPIC that holds the concessions for Cavite Expressway (CAVITEX), C5 Link Expressway, Cavite-Laguna Expressway (CALAX), the North Luzon Expressway (NLEX), the NLEX Connector Road, the Subic-Clark-Tarlac Expressway (SCTEX) and the Cebu-Cordova Link Expressway (CCLEX) in Cebu for its domestic portfolio.
