CITY, Cavite --- The city government together with Foodpanda.ph signed a Memorandum of Agreement (MOA) yesterday morning in support of the business sector for the New Normal.

The initiative came about after guidelines for the operations of small businesses that will open on June 1, 2020 were discussed in the first ever webinar for the Bacoor Economic Zone held May 29, 2020.

Public Employment Services Office (PESO) head Dr. Abraham De Castro facilitated the program aimed to generate income for the tricycle drivers in the city by converting their vehicles into single motorcycles for the use in delivery services that would somehow augment their limited income due to strict safety protocols.

AYUDANG KALABASA SA MAMAMAYANG CAVITEÑO MULA KAY FRANCIS LEO MARCOS

TRENDING sa social media, maging sa mainstream media ang "Mayaman Challenge" na sinimulan ni Norman Mangusin, o mas kilalang si Francis Leo Marcos (FLM) na nakadetini sa selda ng National Bureau of Investigation (NBI).

Sa unang buwan ng pananalasa ng pandemyang novel coronavirus-19 (Covid-19), hinamon ni FLM ang mayayaman na tularan ang kanyang pamimigay ng ayudang bigas sa mga kapos-palad.

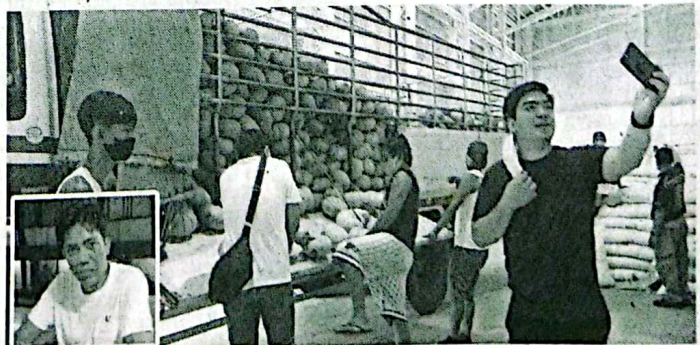

Umani ng maraming papuri ang kanyang pamimigay ng tulong pero marami rin ang nainis na pinaratangan siya na sobrang mayabang at hindi raw totoo, publikidad lamang at ayudang bigas, kalabasa, buhay na manok at iba pang tulong na ipino-post sa You Tube blog ng "mayabang na pilantropo."

Naghamon pa si FLM ng sunugan ng pera -ibig sabihin ay sunugin ang pera sa pagbili ng mga pagkaing itutulong sa mga walang pagkain at nawalan ng pagkakakitaan bunga ng ipinatutupad na enhanced community quarantine (ECQ) sa bansa.

Pinaratangan si Mangusin na isang "pekeng Marcos" at isa raw itong scammer - mahigpit at matinding pinabulaanan ni FLM.

May kumalat na pekeng Facebook account sa pangalan niya, kaya kamakailan, nagtungo siya sa NBI upang magreklamo: duon ay inaresto siya dahil may warrant of arrest siya sa kaso noon pang 2016

FABUNAN ANTI-VIRAL INJECTION, BAKIT TINANGGIHAN NG GOBYERNO?

EKSAKTO na sandaang (100) taon ang pagitan ng dalawang sakit na pumatay ng milyon-milyong tao sa mundo: ito ang Spanish Flu noong 1920, at ang pandemyang novel coronavirus disease o mas kilala sa tawag na Covid-19 (C-19).

Ayon sa tala ng kasaysayan, mahigit 50 milyong tao ang namatay sa Spanish Flu na kumalat sa maraming bansa sa mundo. Nangyaring milyon-milyon ang namatay sa sakit na ito dahil matagal bago natuklasan at naimbento ang gamot sa mga taong dinapuan ng sakit na ito.

Taliwas noong 1920 na hindi pa gaanong maunlad ang siyensiya at teknolohiya sa pagtuklas ng mga gamot at bakuna, kaya umabot sa mahigit sa 50 milyong tao ang nahawahan at namatay sa Spanish Flu.

Makabago na, napakalaki ng iniunlad ng siyensiya, marami nang magagaling na siyentista, doktor at epidemiologist sa mundo at marami nang natuklasang gamot ang pinakamalalaking laboratory sa maraming bansa.

Ayon sa mga experto sa medisina, inaabot ng maraming buwan at taon bago nakatuklas ng gamot na kailangan pang idaan sa paulit-ulit na clinical test upang matiyak ang epektibo nito at walang maging malaking pinsala sa tao.

Bunga ng makabagong teknolohiya, mabilis na natutuklas sa pamamagitan ng microscope ang mga

uri ng bakteryang at virus, pero bakit parang nahihirapan ang mga tagatuklas ng gamot laban sa Covid-19.

Sabi nila, ibang uri ng virus ito sa pangkat ng unang natuklasang corona virus.

Tinawag itong corona dahil ang itsura ay katulad ng korona kapag sinilip sa microscope at sinuri sa laboratory; bukod pa sa may kakaibang katangian ito na madaling magpabago-bago ng lakas at anyo.

Kamakailan, ibinalita ni Presidente Duterte na isang malaking kompanya ng gamot ang nakatuklas at nakagawa ng vaccine laban sa Covid-19 pero bakit hanggang ngayon, hindi pa ito inilalabas para magamot ang mga nagkakasakit sa nakamamatay na virus?

Samantala, maingay sa social media na mayroong Fabunan Anti-Viral Injection (FAI) na may 20 taon nang ipinanggagamot sa dengue fever, HIV at flu at may mga testimonya na maraming pasyenteng Covid-19 ang napagaling ng iniksiyong ito na nilikha ng magkakapatid na Fabunan na pawang mga doctor

mula sa Zambales.

Hiniling nila na subukan ito ng maraming ulit na inilapit sa Department and Drugs Administration at sa Department of Technology at ano ang naging tugon.

Matapos ang pagbibigay ng maraming requirements at hiling na idaan sa clinical ang magkakapatid na Fabunan at binatagan ng inokeyan ng Ministry of Health ng Indiviral injection na ito na tuklas ng kaba.

Kung magtagumpay ang clinical malaking kawalan ito sa ating bansa. Imbensiyong Pinoy ang makikinatamang mamamayang Filipino.

Huling balita, ilang estado sa nagpakita ng malaking interes sa Fabunan. Kung bakit at ano ang mga dahilan sa gamot na Fabunan, tanging ang DOST ang dapat magpaliwanag sa

Nagsimula nang bumalik sa trabaho nitong Lunes, Hunyo 1, ang maraming Caviteño mula nang ipatupad ang general community quarantine (GCQ) sa Metro Manila, kasama ang Cavite at iba pang lalawigan sa Luzon.

Sa umiiral na 'new normal', obligado ang pagsusuo ng face masks, palaging disimpeksiyon gamit ang 70 percent alcohol solutions (o alcogels), kung hindi regular na makapaghuhugas ng kamay.

Sa balitang sinulat ni Ruel Francisco, PIA-Cavite

chapter chief, sinabi ni Remulla na maligo muna pagkagaling sa trabaho bago makihalubilo sa mga kasama sa bahay, lalo na sa mga bata at nakatatanda na madaling mahawa ng sakit.

Sa nakaraang tatlong araw, marami sa mga nagbalik-trabaho ang nagreklamo na nahirapang makasakay dahil sa kulang ang mga sasakyang publiko palabas at pabalik ng Metro-Manila mula sa Cavite.

Dagdag ng gobernador, ipinatutupad pa rin ang quarantine pass system (QPS) sa Cavite upang mamonitor ang galaw ng mga residente.

Ayon kay Remulla na epektibo ang QPS upang mapigil ang pagdami ng nagkakasakit ng Covid-19.

state of health emergency crisis emphasized the need to maximize the business of 'delivery services.'

"Our fellow Bacooreños in the transportation sector are one of the most affected by the community quarantine. They are making money and relying on their daily trips so it had been very difficult for them with almost three months of not getting out to work," stated Mayor Lani Revilla.

"We decided to have an agreement with delivery services like foodpanda because this way, we're hitting three birds with one stone. First, we helped the Bacooreños stay safe at home,

secondly, we provided extra services for entrepreneurs and third, we provided jobs for our tricycle drivers," justified the mayor.

Dr. De Castro shared that, "Bacoor is the first city in all of CALABARZON to enter into this agreement with a private sector in the delivery service from which 150 drivers will benefit from."

Foodpanda.ph Managing Director Daniel Marogy estimated the average income that could be earned from the delivery services is about P25,000.00 a month, a very big help for a driver with a family to support.

dahil napag - alaman din na hindi pa rin maalis sa kanilang mga isipan ang pananalasa ng epidemya na kung saan marami ang namatay at nahawaan ng NCoV.

Dahil ang epidemya ay maituturing na isa sa mapanganib na kalaban na hindi nakikita ninuman, kung nagkaganito man ang reaksiyon ng ilang mamamayan maituturing ito na isang trauma. Mas maigi ng magkaroon ng takot sa COVID-19 kaysa

mahawaan ng sakit tapos gobyerno ang magpapasan.

Dahil kahit halos ang lahat ng lugar ay nasa GCQ na, kailangan pa rin ang pag - iingat para maprotektahan ang bawat kalusugan. (Reyland Lopez)

Bacoor City Mayor Lani-Mercado Revilla led the blessing and turnover ceremony along with Department of Health Regional Director Dr. Eduardo Janairo and STRH Director Dr. Ephraim Rubiano and other DOH and STRH officials.

According to the latest data from the Bacoor Covid-19 Task Force and

the City Epidemiology and Surveillance Unit (CESU), the city recorded a total of 127 COVID-19 positive cases, 71 recoveries, 45 are active cases, and 11 fatalities from the disease.

Mayor Revilla said "Targeted mass testing of our frontliners are now being conducted, thus there will always be the possibility of an increase in the number of cases which I pray would not happen.

If this happens, early detection of the new cases would be the answer followed by the immediate isolation and

proper treatment until they fully recover."

"After the strict implementation of social distancing in the city, we are now focusing on increasing our capacity for health concerns and addressing them.

Beside the temporary isolation and quarantine facilities from the use of the existing hotels, motels, and inns in the city, we are now able to have our own Ligtas COVID-19 Center," the mayor concluded. (Ruel Francisco, PIA-Cavite with report from Bacoor Information Office)
