Kalusugan ay Pangalagaan, Covid-

Imus City Mayor Emmanuel L. Maliksi

Nagdeklara ng Public Health Emergency ang World Health Organization noong ika – 30 ng Enero 2020 kaugnay pa rin sa patuloy na pagtaas ng kaso ng Corona Disease 2019 (Covid19).

Ilang pamamaraan kung paano kumakalat ang Covid-19:

- Pagkakahawa sa pamamagitan ng small droplets na nagmumula sa ilong o bibig ng taong may Covid-19 kapag ito ay umubo, bumahing o huminga ng palabas;
- Paghawak sa bahagi ng mukha matapos humawak sa mga bagay na natalsikan ng small droplets ng taong may Covid-19.

Sa kasalukuyan, ang virus na ito ay wala pang lunas kung kaya't ang pinaka mabisang paraan upang maiwasan ang pagkakaroon ng Covid-19 sa pamamagitan ng mga sumusunod:

- Regular at tamang paghuhugas ng kamay sa loob ng 20 segundo o mahigit pa, o paggamit ng alcohol-based hand rub;
- Physical distancing o pagpapanatili ng isang (1) metro o tatlong (3) talampakang distansya sa ibang tao;
- Pag-iwas na hawakan ang mga mata, ilong at bibig kung hindi pa nakakapaghugas o nakakapaglinis ng kamay;
- Tamang pamamaraan ng pag-ubo o pagbahing;
- Siguruhing luto ang mga pagkain;
- Iwasan ang paglabas ng tahanan lalo kung hindi ito kinakailangan. Manatili rin sa tahanan at huwag agad pumunta sa ospital o pagamutan kung masama ang pakiramdam.

Agad na ipaalam sa health authorities kung may nararamdamang sintomas ng Covid-19;

- Manatiling alerto sa estado ng inyong lugar sa pamamagitan ng panonood at pagbabasa ng balita tungkol sa Covid-19 upang magkaroon ng kamalayan ukol dito. Ayon sa World Health Organization, 80% ng mga nagkasakit ay gumaling ng hindi nangangailangan ng special treatment.

Isa (1) sa anim (6) na apektado ay nakakaranas ng malubhang karamdaman at hirap sa paghinga. Ang may edad 60 pataas na may high blood pressure, heart problems or diabetes ay mas madaling maapektuhan ng malubhang sakit dala ng virus na ito.

Isa rin sa isinusulong ng programa ang 'cashless transaction' para sa kaligtasan ng driver at mamimili. Para sa delivery services nito, kaisa naman ng Pamahalaang Lungsod ang mga tricycle drivers na apektado ng community quarantine gamit naman ang e-vehicle ng Pamahalaang Lungsod. Dito, maaaring kumuha ang mag-aaral ng kanilang educational gadget sa pamamagitan ng installment basis.

Namahagi rin ang pamahalaan ng e-learning equipment sa iba't ibang pampublikong paaralan, sa ilalim ng Project EMMANUEL.

Para sa modular learning, namahagi rin ang pamahalaan ng E-Jeep sa mga pampublikong paaralan, sa ilalim ng Green School Program, isa sa Legacy Projects ni Punong lungsod Emmanuel L. Maliksi.

Ito ay upang makatulong sa pamamahagi ng module sa bawat kabahayan. Naging kaisa rin ng DepEd Imus ang Pamahalaang Lungsod sa mabilis na produksyon ng mga module bago pa man magsimula ang klase.

Ang pagtugon sa mga pangunahing pangangailangan ng bawat pamilyang Imuseño ay nagsilbing malaking hamon sa pamahalaan. Ganoon pa man, naging masigasig ang Pamahalaang Lungsod sa epektibong pagtugon dito.

Naniniwala ang administrasyong Maliksi na sa pagtutulungan ng mga namumuno, at pakikiisa ng iba't ibang tanggapan at mga mamamayan, walang pagsubok ang hindi mapagtatagumpayan.

doing it, work together and learn from each other, but remember – lockdowns just have one consequence that you must never ever belittle, and that is making poor people an awful lot poorer."

Maraming siyentipiko, mga doktor ay lumagda sa Great Barrington Declaration na sinabi na ang kasalukuyang "lockdown policies" ay nagbubunga ng mapanganib na epekto sa kalusugan ng mamamayan sa buong mundo.

Isa sa pumirma sa Declaration ay si Dr. Martin Kulldorff, isang dalubhasang biostatistician, epidemiologist at propesor sa medisina ng Harvard University.

Pumirma rin sa Declaration si Dr. Sunetra Gupta, propesor sa Oxford University na tulad ni Dr. Kulldorf ay bihasa sa pag-aaral at malawak ang karanasan sa infectious disease outbreaks at pagtiyak na ligtas ang paggamit ng bakuna laban sa nakahahawang sakit.

Isa pa sa pumirma sa Declaration ay siDr. Jay Bhattacharya, propesor sa medicina ng University Medical School at isa ring epidemiologist, health economist, at public health policy expert sa nakahahawa at nakamamatay na virus at iba pang nakamamatay na sakit gawa ng bakterya.

Sabi sa Declaratin: "The most compassionate approach that balances the risks and benefits of reaching herd immunity, is to allow those who are at minimal risk of death to live their lives normally to build up immunity to the virus through natural infection, while better protecting those who are at highest risk."

May silbi lamang ang lockdown sa mayayaman, pero matinding pahirap sa mga kapos-sa-buhay, lalo na ang mga mamamayan sa mahihirap na bansa, sabi ni William Anderson.

"We have to understand that the political classes and their media have a vested interest in the lockdown status quo, and that includes regular provision of what only can be called disinformation," sabi ni Anderson.

Pinaniwala ng maiimpluwensiyang 'political class,' ang publiko sa kuwento na nakamamatay at dapat na katakutan ang Covid-19.

"xxx It should have been obvious on its face that the report was deeply flawed, yet in their desire to fuel the covid-is-killing-us narrative, journalists took this too-good-to-be-true story and ran with it," sabi ni Ander[...]

WHO SPECIAL ENVOY: LOCKDO[...] DI KAILANGAN PARA MAIWAS[...] PAGKALAT NG COVID-19

TALAGA ba hindi gaanong epektibo ang pagpapairal ng *lock* para mapigil ang pagkalat ng new coronavirus disease 2019?

Sa isang nakagugulat na pahayag, sinabi ni David Nabarro, special envoy ng World Health Organization (WHO), walang gaanong epekto laban sa Covid-19 ang implementasyon ng "authoritarian approach"na pinaiiral ng maraming lider ng bansa laban sa sakit na ito.

"We in the World Health Organization do not advocate lockdowns as the primary means of control of this virus," sabi ni Nabarro.

Bakit noon ay inirekomenda nila ang lockdown?

Sinabi ni Nabarro sa pahayagang The Spectator na naniwala sila noon na kailangan ang lockdown upang mabigyan ng panahon ang lahat na makapaghanda sa paglaban sa virus.

Aniya:"The only time we believe a lockdown is justified is to buy you time to reorganize, regroup, rebalance your resources, protect your health workers who are exhausted, but by and large, we'd rather not do it."

Sa ulat ng Zerohedge.com, sinabi ni Nabarro na labis na pinahirapan ng pinaiiral na lockdown ang mahihirap na bansa sa buong mundo.

Sabi pa ni Nabarro, naperwisyo nang matindi ang industriya ng turismo, tulad ng nangyari sa Caribbean at sa Pacific na wala nang tao na nagliliwaliw.

Maraming maliliit na magsasaka at negosyante sa buong mundo ang naghihirap, paliwanag pa ni Nabarro.
